WELCOME MESSAGE

On behalf of MANSAB, it is a pleasure to extend my gratitude and appreciation to our clientele and associates who have contributed to the development and growth of this group, making the organization progressive and to face the future challenges.

We have achieved this success by developing long-term business partnerships with our customers and by serving them in line with our mission and company objectives.

To those who are new to us, I request to kindly take a moment to go through our company business profile, where the whole business operation has been defined with innovative ideas and technology. This will give you a brief outline of the range of our activities.

We pledge to monitor our performance and to strive for continuous improvement.

~ Managing Director

ABOUT COMPANY

MANSAB Tech is specialized in IT Services. Our tailormade services allow our company to attract potential clients.

We have a realistic understanding of our competitors; cultivate an active partnership with our vendors and help to deliver maximum value to our clients. We explore new ideas and believe in commitment rather than promising.

We have a wide range of customers in diversified fields of business. We won several appreciations from our clients for our services and support.

We do not claim to be the best, however, our qualified professionals, wide range of experience, quality standards and unmatched performance distinguish our company among firms offering similar services. We have set of quality standards to follow with and are constantly looking to improve even further.

We assure that you are teaming with a reliable partner.

CORPORATE **VALUES**

VISION

To establish an organization that ensures customer satisfaction through services, fosters a positive and rewarding career environment for employees, and delivers sustainable long-term returns and security for investors.

MISSION

To serve as a trusted strategic partner for our clients by delivering high-quality, cost-effective solutions and ensuring seamless operational support to meet their needs.

A decorative graphic in the bottom right corner of the page. It features a dark blue circular area with the text 'CORE VALUES' in white, bold, sans-serif font. Surrounding this central area are several white icons: a lightbulb, a gear, and a person silhouette. The background of this graphic is a blurred image of a person's face, with a blue and white circular pattern overlaid.

OUR **KEY AREAS**

- Cyber Security
- Microsoft End-to-End Licensing
- Secure File Sharing Solution
- Domain, Hosting & Emails
- Web Development & Maintenance
- Software Applications & ERP
- IT Networking Infrastructure & Data Center
- CCTV Surveillance & Access Door

Cyber Security

In a digital world, where threats evolve every minute. Our cybersecurity services are designed to keep your business protected and resistant. We take a proactive approach, identifying vulnerabilities, monitoring systems round the clock and stopping attacks before they disrupt operations. From network security and endpoint protection to risk assessments and compliance support, we help safeguard your data and network systems.

We manage robust backup and recovery strategies that minimize downtime and data loss, whether the disruption comes from cyberattacks, hardware failures, or natural disasters. With secure backups, rapid restoration and clear recovery plans, we help you get back to business within a minimum time period.

By combining advanced technology with expert guidance, we give you confidence, continuity, and peace of mind.

End-to-End Licensing

We support businesses in selecting and managing licenses across Microsoft and other leading software vendors, ensuring solutions are tailored to operational needs and budget requirements.

With deep expertise in Microsoft licensing, including Microsoft 365, Azure, Windows Server, SQL Server and more. To avoid unnecessary spend, we provide guidance on licensing models, compliance requirements and cost optimization.

We provide licensing support and strategic advisory services. We help organizations in renewals, upgrades and expansion planning with all transparency.

Our Major Partners:

- Microsoft products and Licenses
- Bitdefender Cybersecurity Solutions
- Dropbox file sharing solution

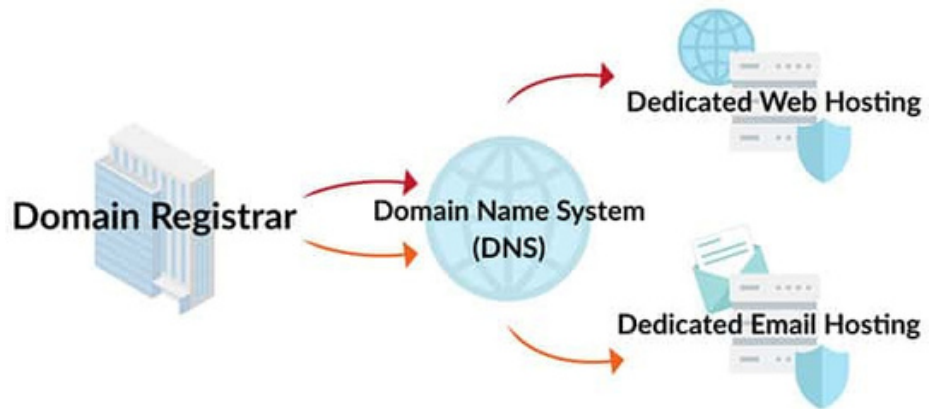

Secure File Sharing Solution

As a trusted Dropbox file sharing Solution Provider, we ensure your teams can store, share, and access files effortlessly, whether they're in the office or remotely. It is easy to use, enabling teams to manage files from anywhere within the network. It eliminates the need of email attachments.

Security and reliability are at the core of everything we do. We implement best practices for data protection, securely store and access control. Built-in administrative controls allow for efficient management of user access and permissions, ensuring both security and ease of use.

We provide Dropbox solutions for your business needs. Which includes user onboarding, permissions management, workflow optimization and integrations with the tools your teams already use.

Domain Hosting & Emails

From web hosting to domain registration and professional email services, we ensure your digital presence is fast, secure and always accessible. Our solutions are designed to support your businesses, whether you're launching a new website or managing a growing online platform.

We take a consultative approach, helping you choose the right hosting environment, domain strategy, and email setup for your specific goals. Our team handles configuration, migration, management and technical complexity.

Security, reliability and support are above all of what we offer. Backed by proactive monitoring and expert support, we implement best practices to protect your website, domains and email communications from downtime and threats.

Website Development & Maintenance

From web hosting to domain registration and professional email services, we ensure your digital

We design and build professional websites for your business. Our team blends strategy, design, and development to create websites that are fast, secure, and easy to use. Every project starts with understanding your goals, your audience, and how your website can drive real results.

We use modern technologies to ensure your website is responsive, scalable, and optimized for performance across all devices. Whether you need a brand-new website, an e-commerce solution, We've got you covered.

We provide after-sale support to keep your website running smoothly and to convert clicks into customers.

We focus on:

- E-commerce / static website development
- SEO digital ranking and optimization
- Publishing relevant and authoritative content
- Optimization for mobile and tablet and PC
- Domain registration, webmail services and website hosting space

Softwares

Applications & ERP

We design and deliver ERP, CRM, and Accounting Software applications that simplify complexity. Our solutions bring your several departments like finance, operations, supply chain, logistics, production, human resources etc. together into one connected system across your organization.

We tailor our software solutions to align seamlessly with your unique need and operational workflows. From small custom ERP implementations to enterprise applications, we focus on seamless integration with your existing tools.

We provide ongoing support, optimization and upgrades to keep your systems up-to-date. With a commitment to customer satisfaction, we help organizations our best in all transformation process.

We deal in:

- Adler ERP
- MS Dynamics 365
- Zoho Accounting ERP

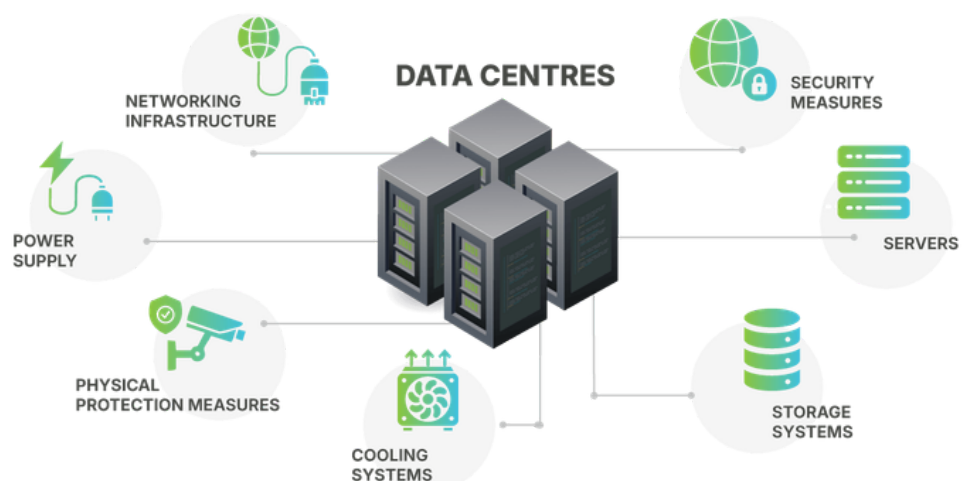

IT Networking Infrastructure & Data Center

We deliver IT infrastructure and data center solutions for the businesses. We design and deploy reliable infrastructure with latest technology that ensures maximum dependability and data security to support critical operations.

With deep expertise in on-premises, hybrid, and cloud-integrated environments, we help organizations optimize performance and control costs. Our team works closely with you to assess your current infrastructure, modernize legacy systems, and implement efficient data center strategies. The result is a resilient, future-ready environment

We provide proactive monitoring, maintenance and support to keep your infrastructure running at peak performance. Our focus on security and disaster recovery ensures your data always remains protected and accessible.

CCTV Surveillance & Access Control

CCTV Surveillance: Protecting your properties starts with visibility and control. Our CCTV surveillance solutions deliver crystal-clear video, real-time monitoring and reliable recording. From small offices to large commercial facilities, we design surveillance systems that reduce risk, and give you peace of mind whether you're on-site or miles away.

Access Control: Access control is the next layer of smart security. Our access door systems let you decide who, when and where can enter using keycards, PINs, biometrics or mobile credentials.

Our wide range of products and solutions, help you find the most suitable and cost-effective solution tailored to your specific needs.
